KUNAL LAD

A dedicated and self-motivated aspiring Frontend Developer with a Bachelor's in Computer Applications and a strong passion for building modern, responsive, and user-focused web applications. I am currently working night shifts in the BPO sector while devoting my days to mastering frontend development. My goal is to transition into a full-time software development role, using my perseverance, adaptability, and hunger to grow. Married and a father, I am driven by both personal responsibility and professional ambition. I see software development not just as a skill, but as a long-term mission toward financial and creative independence.

EDUCATION:

Bachelor of Computer Applications (BCA)
University Name (if applicable) • Completed: 2022

Skills:

- **Frontend**: HTML5, CSS3, JavaScript (ES6+), React.js, Vite, Tailwind CSS, Responsive Web Design
- **Version Control**: Git, GitHub
- **Tools & Libraries**: Lucide Icons, Vite, Dark/Light Theme Toggle
- **Soft Skills**: Problem-solving, communication, time management, self-discipline

---

Projects:

Personal Portfolio Website

GitHub: kunallad0007/kunaldev-portfolio

Live Demo: kunaldev-porfolio.vercel.app

Tech Stack: React.js, Vite, Tailwind CSS, Lucide Icons

Designed and developed a fully responsive and visually engaging personal portfolio from scratch. Features include:

- Hero section with professional intro and call-to-action buttons
- About section telling my real journey into tech
- Contact section with email functionality
- Light/Dark theme toggle with optimized images
- Mobile-first layout with smooth responsiveness

This project showcases my proficiency in modern frontend tools and design best practices, aiming to create an impactful first impression for recruiters and clients.

Work Experience:

Customer Support Executive
BPO Sector • Various Companies (Foundever, Tech Mahindra, Gallagher Bassett) • 3+ Years

- Maintained high-quality communication with global clients in night shift operations
- Adapted to internal tools, workflows, and web apps (social media app, insurance deposit app, commute app)
- Developed strong work ethic, attention to detail, and multitasking ability in high-pressure environments
- Participated in internal app enhancement feedback cycles, indirectly contributing to UI/UX discussions

  While not core software roles, these jobs built my discipline, patience, and professional communication — all now redirected into my tech career.

Availability

- Open to Frontend Developer, React Developer, or Trainee Developer roles (remote or on-site)
- Available for full-time employment
- Can join immediately with commitment to long-term growth

Additional Details

- **Languages**: English, Hindi, Marathi
- **Marital Status**: Married
- **Current Focus**: Building real-world apps, contributing to open-source, and strengthening backend skills
- **Goal**: Become a full-stack engineer, financially independent, and contribute to impactful tech products

---

Declaration

I hereby declare that all information provided above is true to the best of my knowledge and belief. I am committed to bringing value, growth, and passion to the team I join.
